## Skills

### Technical Skills

- Python
- C#
- Unity
- Web Development
- Oracle SQL
- Java

## Languages

### French

A2

### Arabic

Mother tongue (C2)

### English

Bilingual + European level (C1)

## Interests

Swimming

TV Series

Rabieh Hasbani

## Software Engineering Student

### Academic Work

#### Arithmetic Logic Unit Project

2023 [USEK](#) Kaslik Campus

I have participated in a project to simulate the necessary components for an arithmetic logic unit for a computer.

#### Battleship (using Java)

2023 [USEK](#) Kaslik Campus

I have created a version of the infamous Battleship game using the Eclipse IDE and the Java language

### Education

#### BE

Since August 2022 [USEK](#) Djounie, JL, Lebanon

- Total GPA:90.5/100
- Courses: Data Structures And Algorithms, Object Oriented Design, Database Systems.

#### Life Sciences Baccalaureate

From 2021 to 2022

[Marjayoun Public Highschool](#) Marjayoun, NA, Lebanon

- Baccalaureate score:17/20
- Graduation score:18/20

### Projects

#### Fighting Game Project

- Developed a 2-player fighting game using Unity and C#.
- Designed 8-bit bandit-like characters and implemented a dynamic background featuring a blue sky and green patch of land.
- Integrated various background music options for an enhanced player experience.

#### One-Eyed Jumper

- Developed a platformer game in Unity featuring a small blue one-eyed monster that blinks when jumping between platforms.
- Designed challenging gameplay with two columns of platforms of varying heights and speeds, increasing in difficulty as the score progresses.
- Synchronized background music to match the increasing speed, creating a dynamic and immersive player experience.
